SOUTH CAROLINA STATISTICAL ABSTRACT
1985

SOUTH CAROLINA BUDGET AND CONTROL BOARD
GOVERNOR RICHARD W. RILEY
CHAIRMAN

GRADY L. PATTERSON, JR., State Treasurer
EARLE E. MORRIS, JR., Comptroller General
REMBERT C. DENNIS, CHAIRMAN, Senate Finance Committee
THOMAS G. MANGUM, CHAIRMAN, House Ways & Means Committee
WILLIAM T. PUTNAM, Executive Director

A Publication of
THE SOUTH CAROLINA DIVISION OF RESEARCH
AND
STATISTICAL SERVICES
Bobby M. Bowers, Director

Preface

The South Carolina Statistical Abstract is a comprehensive single source reference for economic and demographic statistical data pertaining to the state. Data are compiled from in-house data bases, and a variety of federal, state, local, and private references. In addition to pertinent data for South Carolina, the Abstract presents comparative data for other southeastern states and the United States in many of the sections. Every effort is made to obtain and publish in the Abstract the most up-to-date information possible. It is impossible to insure uniformity, but time periods are always stated on the tables.

Located in the Abstract are the latest statistics on factors impacting on the state's area and industrial development: manufacturing, importing, exporting, construction, housing, business and trade, employment, banking and finance, wages and prices, taxes, education, climate, parks and recreation, population, vital statistics, etc.

It is impossible to compile and publish the South Carolina Statistical Abstract without the continued cooperation and assistance of numerous persons in both public and private agencies who generously contributed time and effort to provide us with much of the data contained in this volume.

We hope you find the Abstract useful and informative. Many persons have contributed suggestions which have been incorporated into this volume. We invite your comments and suggestions for future editions.

The State Data Center of the Division of Research and Statistical Services has prepared the 1985 Statistical Abstract using the latest information available. The following staff members contributed to the preparation of this report: Donna King, Billie Howell, Mike Macfarlane, Jess Weiss, and Cindy Tarte. Census generated maps produced at the Social and Behavioral Sciences Lab of the University of South Carolina.

Information and assistance was provided from state and federal agencies and other organizations from around the state. A complete listing of these agencies and organizations is found in the Source Appendix.

Further information may be obtained from:

State Data Center
Division of Research and Statistical Services
Rembert C. Dennis Building, Room 337
1000 Assembly Street
Columbia, South Carolina 29201
803-758-2586

The price of the S. C. Statistical Abstract is $16.00. Please make check payable to South Carolina State Treasurer. The above price includes handling and postage.

STATE RANKINGS

Table of Contents

Page

Resident Population Estimates (July 1, 1984) 9

Percent Change (1980-1984) 9

Land Area in Square Miles 9

Resident Population Per Square Mile (1984) 9

Population Projections (July 1, 1990) 10

Percent of Population Living in Metro Areas (1983) 10

Percent of Provisional Population 65 Years and Over (1984) 10

Birth Rate Per 1,000 Population (1982) 10

Persons 25 Years Old and Over - High School Graduates (1980) 11

Public School Teacher Salaries (1984) 11

Public Elementary/Secondary Schools Current Expenditures Per Pupil (1984) 11

Public Elementary/Secondary Schools Expenditure Per Capita (1984) 11

Map of State Rankings by Percent of Persons 25 Years Old and Over Who Are High School Graduates (1980) 12

Map of State Rankings by Public Elementary School Expenditures Per Pupil (1984) 12

Percent of Families with Income of $50,000+ (1979) 13

Percent of Persons Below Poverty Level (1979) 13

Energy Consumption Per Capita (1982) 13

Energy Expenditure Per Capita (1981) 13

Net Farm Income (1983) 14

1983 Construction Contracts Value 14

New Housing Units Started (1983) 14

1980 Median Value Owner-Occupied Units 14

Civilian Labor Force (1983) 15

Per Capita Income (1983) 15

Federal Funds Per Capita (1983) 15

State Governments General Revenue Per Capita (1982) 15

Map of State Rankings by Percent of Persons Below Poverty Level (1979) 16

Map of State Rankings by Per Capita Income (1983) 16

Employment/Population Ratio (1983) 17

1983 State and Local Taxes Per $1,000 of Income 17

Average Annual Pay (1983) 17

Unemployment Rate (1983). 17

Manufacturing Value of Shipments (1981) 18

Manufacturing Employment - Percent Export Related (1981). 18

Death Rate Per 100,000 Population: Heart Disease (1981). 18

Death Rate Per 100,000 Population: Cancer (1981) 18

Map of State Rankings by Death Rate Per 100,000 Persons From Heart Disease (1981) 19

Map of State Rankings by Average Cost Per Patient Per Day (1982). 19

Physicians Per 100,000 Population (1981). 20

Hospital Beds Per 100,000 Population (1982) 20

Hospitals' Average Cost Per Patient Per Day (1982). 20

1983 Food Stamp Recipients Per 1,000 Population 20

Motor Vehicles Registered (1983). 21

Deaths from Motor Vehicle Accidents (1981). 21

Crime Rate Per 100,000 Population (1983). 21

Federal and State Prisoners, Rate Per 100,000 Population (1983) 21

Map of State Rankings by Number of New Housing Units Started (1983) 22

Map of State Rankings by Federal and State Prisoners Per 100,000 Persons (1983). 22

This collection of 40 statistical items from the 1985 edition of the Statistical Abstract of the United States gives for each State the value of the item and the State's rank in comparison to other States. (In some cases, more than one State will share the same ranking number.)

Sources of Data

Residential population and population characteristics	U.S. Bureau of the Census
Birth rate	U.S. Nation Center for Health Statistics
Percent of population high school graduates	U.S. Bureau of the Census
Public school teachers' salaries (Copyright.)	National Education Association
Public school expenditures; Higher education enrollment	U.S. National Center for Education Statistics
Crime rate	U.S. Federal Bureau of Investigation
Federal and State prisoners	U.S. Bureau of Justice Statistics
Civilian labor force, unemployment rate, manufacturing employment, average weekly earnings	U.S. Bureau of Labor Statistics
Family money income, poverty rate	U.S. Bureau of the Census
Family consumption and expenditures	U.S. Energy Information Administration
Automobile registrations	U.S. Federal Highway Administration
Motor vehicle deaths	U.S. National Center for Health Statistics
Farm income	U.S. Department of Agriculture
Construction contracts	McGraw-Hill
Housing characteristics	U.S. Bureau of the Census

AGRICULTURE AND SEAFOOD PRODUCTION

Glossary

Farm - A farm, as defined for the 1982 and 1978 censuses, is any place from which $1,000 or more of agricultural products were sold, or normally would have been sold, during the census year.

Cropland - Land used for all row crops, close-grown field crops, rotation hay and pasture, hayland, conservation use only (excluding forest land), temporarily idle, orchards, vineyards, bush fruit, and open land formerly cropped.

Federal Land - Federally owned land, except that federally owned cropland operated under lease or permit is excluded.

Gross farm income - Includes four principal components - cash receipts from farm marketings of farm products represent gross receipts from commercial market sales as well as loans (net of redemption) made or guaranteed by the Commodity Credit Corporation and other purchases under price support programs. Government payments to farmers are those made directly to farmers in connection with farm programs. Nonmoney income includes the value of farm productions consumed directly in farm households and the rental value of housing provided by farm dwellings. Expenses associated with these products and the dwellings are included in the production expense estimates thus, the nonmoney imputations do not add on a dollar-for-dollar basis to the net. Other farm income is cash income from sources such as recreation, machine hire, and custom work.

Farm production expenses are costs incurred in farm production. They include current farm operating expenses for such items as wages paid to hired labor (in cash and in kind), outlays for repairs of equipment and operation of the farm, as well as purchases of oil, feed, seed, and livestock. Overhead-type costs include charges for depreciation and other capital consumption, taxes on farm property, and interest on the farm mortgage debt.

Farm operators' net income before inventory adjustment represents what is left gross farm income after deducting farm production expenses.

Per capita personal income of the farm population is derived by dividing the appropriate totals by the number of people living on farms.

Farm income - Cash income is the cash receipts from farm marketings and Government payments made directly to farms for related activities. Farm marketings represent agricultural products sold by farmers multiplied by prices received per unit of production at the local market. Gross farm income includes cash income, value of farm products consumed in farm homes, rental value of farm homes, and other farm-related income.

NOTE - Discrepancies found in figures in this section are due to the differences in sources of information. Some information was obtained from the U.S. Bureau of the Census, which conducts a Census of Agriculture every five years. Preliminary reports are published on a flow basis for all counties in the United States with ten farms or more, and for each State and the United States. The 1978 data for the States, as published in the 1978 Census of Agriculture, were a combination of a mail list enumeration and a personal canvass of a sample of area segments, which provided estimates for farms not on the mail list. For 1982, the area sample survey was not conducted; thus, the data represent only farms on the mail list.

Other charts found in this section were provided by the South Carolina Crop and Livestock Reporting Service. This Service is a cooperative effort between the Statistical Reporting Service of the U.S. Department of Agriculture and the Department of Agricultural Economics and Rural Sociology and Agricultural Experiment Station of Clemson University. State funds make it possible to prepare and publish more detailed statistics for South Carolina, in a frequent and timely fashion. Differences between the sets of figures are the result of the different reporting methods, and further information can be obtained from sources listed in the Appendix.

*: Under the 1980 definition, the farm population includes all persons living in rural areas on places of 1 or more acres from which at least $1,000 worth of agricultural products were sold during 1979. Under the 1970 definition, the farm population includes all persons living in rural areas on a place of 10 or more acres with at least $50 worth of annual sales or on a place of fewer than 10 acres with at least $250 worth of agricultural sales. The data in this chart are based on the 1980 census sample.

EDUCATION

Glossary

ELEMENTARY AND SECONDARY EDUCATION

Average Daily Attendance (ADA) - Is the aggregate number of days in attendance for a given period divided by the number of days the school is in session during this period.

Average Daily Membership (ADM) - Is the aggregate number of days in membership for a given period divided by the number of days the school is in session during this period.

Final Enrollment - Enrollment at beginning of the school year plus new enrollments from a non-public school or another state. Withdrawals are not subtracted from the enrollment figures.

Schools - The National Center for Education Statistics (NCES) defines a "school" as" a division of the school system consisting of a group of pupils composed of one or more grade groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant, as is the case when the elementary programs are housed in the same school plant."

"Regular" schools are those which advance a person toward a diploma or degree. They include public and private nursery schools, kindergartens, graded schools, colleges, universities, and professional schools. "Public" schools are schools controlled and supported by local, State or Federal governmental agencies; "private" or "non-public" schools are those controlled and supported mainly by religious organizations or by private persons or organizations.

The Bureau of thee Census defines "elementary" schools as including grades 1 through 8; "high" schools as including grades 9 through 12; and "colleges" as including junior or community colleges, regular 4-year colleges, and graduate or professional schools.

School Year - Except as otherwise indicated in the tables, data relating to enrollment and staff refer to the school year which includes 180 days for students and 185 for staff. Generally, the school year begins in August and ends the first week in June. Statistics concerning finances are for a 12-month period beginning July 1.

HIGHER EDUCATION

Bachelor's Degree - Requires successful completion of at least four but nor more than five years of academic work.

Doctor's Degree - Includes such degrees as Doctor of Education, Doctor of Juridical Science (S.J.D.), Doctor of Philosophy in any field.

First Professional Degree - Signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance and which requires a total of at least six academic years of college work for completion. Examples of first professional degrees are the Doctor of Jurisprudence (J.D.) and Bachelor of Laws (LL.B), Doctor of Dental Surgery (D.D.S.) and Doctor of Medicine (M.D.) degrees.

Master's Degree - Is customarily granted upon successful completion of one (sometimes two) academic years of work beyond the bachelor's degree.

Full-time Equivalency (FTE) for Public School Staff - Is the amount of employed time required in a less than full-time position expressed in proportion to that required in a full-time position with "1" representing one full-time position. The total FTE is derived by dividing the amount of employed time required in the less than full-time position by the amount of employed time required in a corresponding full-time position.

Technical Education - Programs designed to prepare individuals for employment. Completion of a two-year curriculum leads to an associate in Applied Science degree.

Unduplicated Headcount - The number of students enrolled in each listed program. A student is counted in only one curriculum. The extension totals are also unduplicated headcount. Although a student in extension may be counted in each program, he is counted only once in the total.

Vocational Education - One-year programs designed to prepare an individual for employment in a specific occupation; normal completion time requirement is four quarters.

EMPLOYMENT

Glossary

Labor Force - All people classified as employed or unemployed during the week that includes the twelfth of the month.

Civilian Labor Force - All civilians who are classified employed or unemployed during the week that includes the twelfth of the month. (Excludes military personnel)

Employed Persons - All civilians who worked at least one hour for pay or profit or worked 15 hours or more, unpaid, in a family enterprise. Persons away from their employment for illness, bad weather, vacation or labor disputes during this week are counted as employed.

Nonagricultural Employment - Full and part-time wage and salary workers who are employed during the week that includes the twelfth of the month. Not included are armed forces personnel, unpaid family workers, proprietors, self-employed, and workers in private households.

Insured Employment - Persons employed by firms covered by the S.C. Employment Security Law. This is approximately 75% of nonagricultural employment and includes nonprofit organizations employing four or more people and State educational hospital institutions.

Unemployment - All civilians who are not employed during the week including the twelfth of the month who made specific efforts to find a job within the previous four weeks and who were available for work during the week that includes the twelfth of the month.

Wholesale Trade - Wholesale trade has now been divided into two major groups: (1) durable goods and (2) nondurable goods. The types of wholesale trade are: merchant wholesalers; manufacturers' sales branches and sales offices - establishments, separated from plants or mines maintained by manufacturing, refining and mining companies for marketing their products wholesale; merchandise agents and brokers - establishments whose operators are in business for themselves and are primarily engaged in selling or buying goods for others.

Retail Trade - Retail trade covers places selling directly to personal and household users, but not industrial users.

Unemployment Rates - Total number of unemployed people as a percent of the civilian labor force.

EEO Special File - The Equal Employment Opportunity (EEO) Special File was produced by the Bureau of the Census to help meet the needs of both government and industry for more timely data than other detailed census data products, from the 1980 Census of Population in planning EEO/Affirmative Action programs.

Census figures on number of workers by occupation have generally been accepted as estimates for the number of workers who are "skilled". The number of "available skilled workers" is often needed for affirmative action plans or other EEO-related activities. The file addresses this need for work-experience data by furnishing counts of people in specific occupations.

Manufacturing

The number of establishments is the total number of locations at which each company has plants, counting each distinctly different line of activity at each location separately, insofar as company records permit.

Production workers include workers through the foreman level who make, inspect, store and ship the firm's products, or maintain the plant.

Total payroll is the gross earnings paid to all employed during the year, including commissions, bonuses and vacation pay.

CIVILIAN LABOR FORCE, TOTAL EMPLOYMENT AND TOTAL UNEMPLOYMENT IN SOUTH CAROLINA 1976-1984 P/
(IN THOUSANDS)

YEAR	CIVILIAN LABOR FORCE 1/	TOTAL EMPLOYMENT 2/	TOTAL UNEMPLOYMENT	UNEMPLOYMENT AS PERCENT OF LABOR FORCE
1976	1,300.0	1,209.0	91.0	7.0%
1977	1,336.0	1,240.0	96.0	7.2%
1978	1,362.0	1,284.0	78.0	5.7%

Total Employment	47.4	47.0	46.5			
Unemployment	2.5	3.7	4.3			
Percent of Labor Force	5.0	7.3	8.5			

1/: The labor force data in this table are adjusted to the Current Population Survey Benchmark and represent employment and unemployment by place of residence. These data are not comparable to place-of-work data published in other series. Workers involved in labor disputes are included among the employed. Total employment also includes agricultural workers and nonagricultural self-employed, unpaid family, and domestic workers.

2/: The Rock Hill MSA is now part of the Charlotte-Gastonia-Rock Hill NC-SC MSA, which includes all of York County, so York County statistics may be used.

Note: 1984 data will be revised in the next edition.

1/: These data are projected from the Current Population Survey (CPS) benchmark and have been adjusted for commuting and dual job holding. Consequently, these data represent persons by place of residence and are not strictly comparable to the establishment-based nonfarm wage and salary industry employment series. This series replaces all previous labor force series.

2/: Includes workers involved in labor management disputes; also includes agricultural workers and nonagricultural self-employed, unpaid family, and domestic workers.

Note: Totals may not add due to rounding.

ENERGY RESOURCES

Glossary

Energy:

British Thermal Unit (BTU) - **The** quantity **of heat necessary** to raise **the temperature** of one pound of water one degree Fahrenheit.

Public Utilities:

Kilowatt Hour **(KWH)** -- The amount of electrical energy involved with a one thousand watt demand over a period of one hour.

Natural Gas - A gaseous combustible mixture of several hydrocarbons (including methane, ethane, propane, and butane) and minute amounts of other compounds.

GEOGRAPHY, ENVIRONMENT, AND RECREATION

Glossary

Forest land - Land at least 16.7 percent stocked by forest of any size, or formerly having had such tree cover, and not currently developed for nonforest use.

National Forest land - Federal lands which have been legally designated as National Forests or purchase units, and other lands under the administration of the Forest Service, including experimental areas and Bankhead-Jones Title III lands.

Unproductive forest land - Forest land incapable of producing 20 cubic feet per acre of industrial wood under natural conditions, because of adverse site conditions.

Productive-reserved forest land - Forest land sufficiently productive to qualify as commercial forest land, but withdrawn from timber utilization through statute or administrative designation.

Commercial forest land - Forest land producing or capable of producing crops of industrial wood and not withdrawn from timber utilization.

Nonforest land - Land that has never supported forests and lands formerly forested where timber management is precluded by development for other uses.

Natural Resources - This function includes activities primarily concerned with the conservation and development of natural resources--forest fire prevention and control, flood control, irrigation, drainage, land and forest reclamation, fish and game preservation and control, soil conservation, forestry, agricultural aids and research, agricultural development and inspection, and mineral resources activities.

Mineral Industries - include establishments primarily engaged in metal mining, anthracite mining, bituminous coal and lignite mining, oil and gas extraction, mining services and mining and milling or otherwise preparing nonmetallic minerals, except fuels.

Automobile Transportation Industry - Automotive dealers and gasoline service stations; automotive rental and leasing without drivers.

Entertainment/Recreation Industry - Amusement and recreation services and motion picture theaters.

Food Service Industry - Eating and drinking places.

Lodging Industry - This industry includes hotels, motels and motor hotels, camps and trailer parks, and general building contractors -- residential buildings and operative builders.

Public Transportation Expenditures - This includes traveler spending on air, bus, rail and boat/ship transportation, and taxicab or limousine service between airports and central cities. Aslo included are expenditures on "other transportation" as indicated in the 1977 National Travel Survey.

Travel - The act of taking a "trip".

Traveler - The broad term traveler or tourist includes persons going outside their daily commuting zones. State residents traveling on trips away from home are included in the total, along with out-of-state visitors. The estimates include persons traveling for business, pleasure, and personal affairs. Also included are travelers passing through en route to destinations beyond, and parties making short trips, such as weekend or holiday visits. One-day as well as overnight trips are included. Regular commuters are not included.

Trip - A trip occurs every time one or more persons goes to a place 100 miles or more away from home in one day, or is out-of-town one or more nights, and returns to his origin. Specifically excluded from this definition are: (1) travel as part of an operating crew on a train, plane, bus, truck or ship; (2) commuting to a place of work; (3) student trips to school or those taken while in school. Also excluded is foreign travel activity in the U. S.

Visitor - This term is usually limited to special studies of individual cities or metropolitan areas. It includes those not residing in the area under study who travel away from home overnight or on a day trip of 200 round-trip miles or more and visit the area. As a general rule, total travel impact on an area less the impact of area residents equals visitor impact.

MINERAL PRODUCTION IN SOUTH CAROLINA: 1982-1984

MINERALS	1982	1983	1984
Clays	$ 28,166,000	$ 34,831,000	$ 34,509,446
Sand and Gravel	24,072,000	28,169,000	31,986,353
Stone:			
Crushed	53,000,000	61,054,000	72,500,000/e
Dimension	904,000	1,165,000	1,092,000/e
Fuller's earth, peat, gem scones, vermiculite, manganiferous ore (for brick manufacture), mica (scrap and for brick manufacture)	13,997,000	13,244,000	13,061,998
Total	$120,139,000	$138,463,000	$153,149,797

/e: Estimated.

Note: The value of mineral production in South Carolina in 1984 increased about 11% to an estimated $153 million. Commodities contributing to the bulk of the value include crushed stone, clays, limestone (for cement), sand and gravel. Value of gold production not available.

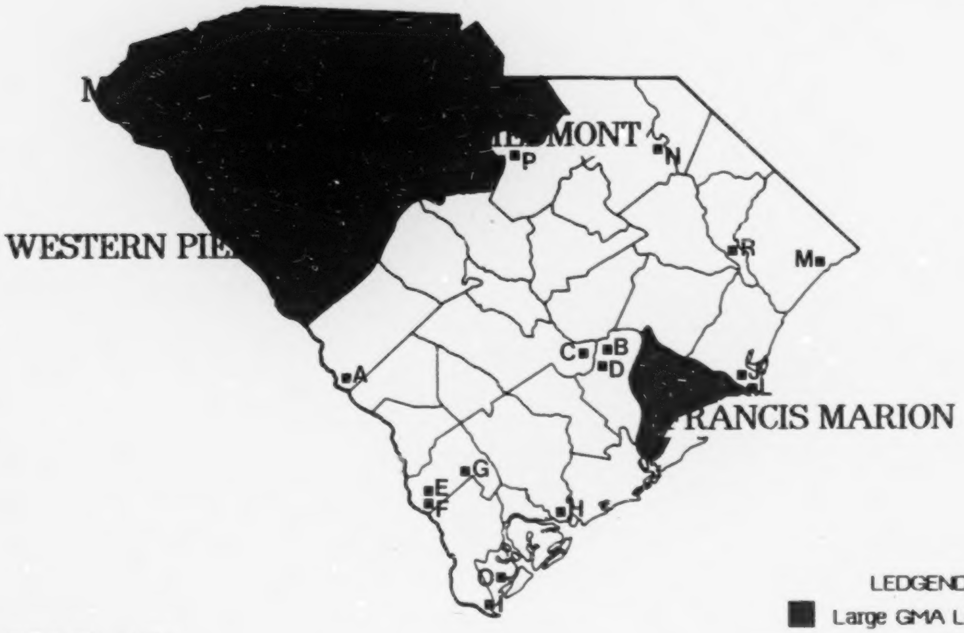
GAME MANAGEMENT AREAS OF SOUTH CAROLINA



LEDGEND

■ Large GMA Lands

Small Areas are indicated by letters

SMALL GMA LANDS

A - Crackerneck
B - Moultrie
C - Santee-Cooper
D - Hatchery
E - Webb
F - Palachucola
G - Cypress Creek
H - Bear Island
I - Turtle Island
J - Santee-Delta
K - Samworth
L - Santee Coastal Reserve
M - Buist
N - Skufful
O - Victoria Bluff
P - Liberty Hill
Q - Parr Hydroelectric Project
R - Pee Dee Station Site

GAME MANAGEMENT AREA LANDS

The 18 counties of Game Zones I, II, and IV, the S. C. General Assembly has granted to the SCWMRD Executive Director authority to set regulations, seasons, and bag limits. Deer and turkey on all lands, both public and private, within these 18 counties may be hunted only within the hunt unit boundary lines. GMA regulations apply to all lands within the boundary, both public and private.

LANDOWNER PERMISSION REQURIED

Possession of a hunting licence and a management area permit does not give the holder the right to use private lands. Lands inside the hunt unit boundaries, but not marked by U. S. Forest Service or Game Management Area signs, are considered posted as private property. Permission from the landowner must be obtained prior to entering these lands.

Persons not obtaining landowner permission may be charged with trespass and receive a fine, jail sentence, or both.

GOVERNMENT & POLITICS

Glossary

Governmental Units - A government is an organized entity whose governmental character is evidenced by popular election of the officials or their appointment by public officials, a high degree of public accountability, and the power to raise revenue to provide authorized services. In addition, a governmental unit must have sufficient discretion in the management of its own affairs to distinguish it from the administrative structure of any other governmental unit.

Municipality - A municipality is a political subdivision within which a municipal corporation has been established to provied general local government services for a specific population concentration in a defined area.

Special District - Special districts are local governmental units created to provide specific services that are not being supplied by other governments. These governmental units are known by a variety of titles including districts, authorities, boards, and commissions. A majority of special districts are established to perform a single function, but some have been given authority to provide several, usually related, kinds of services.

Full-time Equivalent Employment - A computed statistic representing the number of full-time employees that could have been employed at the same total payroll cost if all personnel were engaged on a full-time basis at the average monthly pay applying to full-time workers; it is calculated separately for each particular function of a government by dividing the total payroll amount (full-time plus part-time) by the full-time payroll amount and multiplying the resultant quotient by the number of full-time employees.

STATE OF SOUTH CAROLINA

Entered Union 1788, the Eighth State to ratify the Constitution

NAME DERIVATION: Carolus, the Latin form of Charles. The State was first named for Charles I of England. Later it was renamed for Charles II who granted the land that is now North Carolina, South Carolina, and Georgia to eight of his friends.

NICKNAME: Palmetto State

MOTTO: Dum Spiro Spero (While I Breathe, I Hope)

FLOWER: Yellow Jessamine

BIRD: Carolina Wren

TREE: Palmetto

CAPITAL: Columbia

ELECTED OFFICIALS: Governor - Richard W. Riley
Lieutenant Governor - Michael R. Daniel
Secretary of State - John T. Campbell
Attorney General - T. Travis Medlock
Treasurer - Grady L. Patterson
Comptroller General - Earle E. Morris
Superintendent of Education - Charlie G. Williams
Adjutant General - T. Eston Marchant
Commissioner of Agriculture - D. Leslie Tindal

Governor elected for a four year term; may serve two consecutive terms.

U. S. SENATORS: Strom Thurmond, Ernest F. Hollings

U. S. CONGRESSMEN (6): Thomas F. Hartnett
Floyd D. Spence
Butler C. Derrick
Carroll A. Campbell
John M. Spratt
Robert M. Tallon

STATE SENATORS: 46, elected for four year terms

MEMBERS OF THE HOUSE OF REPRESENTATIVES: 124, elected for two year terms

COUNTIES: 46

AREA: 31,113 square miles, 40th in the Nation

LOCAL GOVERNMENTS AND PUBLIC SCHOOL SYSTEMS IN SOUTH CAROLINA: 1982

GOVERNMENTAL FINANCES

Glossary

REVENUES

General Fund - The State's largest primary revenue-generating fund group. It represents a composite of revenue sources derived from taxation, licenses, fees and all institutional and departmental revenues or collections including income from the sale of commodities and services or other activities which provide funds for the fiscal operation of State government.

The various revenues making up the General Fund are categorized into three source descriptions for accounting purposes in the fiscal State Budget: Regular Sources, Miscellaneous Sources and Federal Revenue Sharing Funds.

Regular Sources - Revenues which are established basis of income from year to year. These include the Sales and Use Tax, the Income Taxes, (individual and corporation) and an All Other segment comprised of twenty-eight additional tax, interest, assessment and/or license accounts.

Miscellaneous Sources - Revenue that is not as predictable as collections from Regular Sources. Generally, this classification incorporates: (1) those receipts which do not always recur in succeeding years, often labelled "windfall revenues" (2) first-year collections of newly enacted taxes and (3) line-item transfers of agency appropriations to the General Fund for specific purposes.

Revenue Sharing - Funds pursuant to the provisions of the State and Local Fiscal Assistance Act of 1972, as amended (Revenue Sharing Act). These include general Revenue Sharing Funds, Anti-Recession Aid Funds, and interest received from investment of said accounts during the current fiscal year. "Windfall Revenue Sharing Funds" based on allotments and interest received by the State for the funding period of January 1, 1972 through June 30, 1973 were maintained in a separate account and reported as a special entry on the financial statements apart from the General Fund prior to Fiscal year 1977-1978. Prior years have been adjusted to incorporate this fund.

Aid to Subdivisions - Distribution of State aid to counties and municipalities. Except for a reimbursement to counties for a homestead exemption (property tax), funds are allocated on a percentage basis from total collections of designated State taxes. The distribution formula is prescribed by statute and is subject to change. Types of funds: (1) Unrestricted -where such monies may be used for the general operations of the county, city, or town; (2) Restricted - where the expenditure of such monies is designated by the law or the regulation to a particular project or program.

EXPENDITURES

South Carolina (General Fund)- The State expenditure data is limited to General Fund operations only and will differ from the consolidated expenditure statements outlined in other S. C. financial agency reports. Expenditures are classified by functional groups. The following appropriations are excluded: (1) Capital Outlay and Non-Recurring -- funds utilized for capital improvements and other special projects i.e., new construction, expansion and/or renovation of the physical plant. (2) All Federal appropriations except "recurring" Revenue Sharing appropriations (See Revenue Sharing description of this section for applicable Revenue Sharing fund (3) Highway Fund - expenditures for the operation of the S.C. Department of Highways and Public Transportation.

Government Units - A government is an organized entity whose governmental character is evidenced by popular election of the officials or their appointment by public officials, a high degree of public accountability, and the power to raise revenue to provide authorized services. In addition, a governmental unit must have sufficient discretion in the management of its own affairs to distinguish it from the administrative structure of any other governmental unit.

State Government - This category refers to the governments of the 50 states which constitute the United States.

Local Governments - The Bureau of the Census classifies local governments by five major types--county, municipality, township, school district and special district.

BANKING

Banking System - Banks in this country are organized under the laws of both the States and the Federal Government. State-chartered banks are supervised by officials of the respective States. "National" banks are supervised by the Comptroller of the Currency.

The Federal Reserve System - was established in 1913 to exercise central banking functions, some of which are shared with the United States Treasury. It includes national banks and such State banks as voluntarily join the System.

Savings and Loan Associations - Unlike banks, are not engaged in deposit banking; primarily involve themselves in credit extension in the form of loans.

HEALTH AND PUBLIC WELFARE

Glossary

AFDC (Aid to Families with Dependent Children) - Financial assistance available to families with children who are deprived of parental care or support due to the absence or incapacity of one or both parents. Payments are based on the differences between income available to the family and the total allowance established under the Consolidated Standard of Need for food, clothing, shelter, utilities, household furnishings, equipment and supplies, personal expenses, medicine (other than prescription drugs), certain school fees, and transportation costs for the members in the budget unit.

Food Stamp Program - A federal, state and local program designed to provide individuals meeting certain income eligibility standards set by the federal government with coupons for food through purchase or as a reduction from their assistance payment. The purchase price of the coupons is less than the dollar value of the goods they can purchase.

Medicare - A federal hospital and medical insurance protection plan enacted in 1965 under the Social Security program. The program was designed to cover persons 65 and over and has been expanded to include persons under 65 who have been entitled to disability checks for 2 or more consecutive years and persons with permanent kidney failure who need dialysis or kidney transplants.

Public Assistance - Aid provided to the needy, aged, blind, disabled and families of dependent children under federal and state programs.

Vocational Rehabilitation Services - A state and federal program designed to help those with mental or physical disabilities and those with handicaps to become more employable and get jobs. Services include eligibility determination, designing vocational rehabilitation programs, placing clients in jobs and following up programs after employment.

Social Security - A U.S. government program designed to provide continuing income when the individual or family earnings are reduced or stopped because of retirement, disability or death. The program was established in 1935 covering only the worker at retirement but has been gradually extended to include provisions for old age and survivors insurance, contributions to state unemployment insurance, and old age assistance.

SSI - On January 1, 1974, the Supplemental Security Income program was implemented as a result of amendments to the Social Security Act. This program replaced the former federal grants made to the states for Aid to the Aged, Disabled and Blind; and made the administration of these payments the responsibility of the Social Security Administration. In order to prevent any persons from receiving less money under the new program, the states are required to provide supplementary payments to make up any deficits between the old amount and the new amount for all persons on the rolls as of December 31, 1973.

HOUSING

Glossary

Group Quarters - All persons not living in households are classified by the Bureau of the Census as living in group quarters. Persons in group quarters include persons under care or custody in institutions and persons in noninstitutional group quarters such as college domitories, military barracks, monasteries, missions, and workers' dormitories. In addition, noninstitutional group quarters include any living quarters which is occupied by nine or more persons unrelated to the resident who owns or rents (maintains) the living quarters (for example, a large rooming or boarding house, or a large commune).

Household - A household includes all persons who occupy a group of rooms or a single room which constitutes a housing unit. A group of rooms or a single room is regarded as a housing unit when it is occupied as separate living quarters, that is, when the occupants live and eat separately from other persons in the building and have direct access from the outside of the building or through a common hall. The measure "persons per household" is obtained by dividing the number of persons in households by the number of households.

Housing Units - A housing unit is a house, an apartment, group of rooms, or a single room, occupied as separate living quarters, or if vacant, intended for occupancy. Separate living quarters are those in which the occupants live and eat separately from other persons in the building and have direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated persons who share living arrangements. Both occupied and vacant housing units are included in the housing inventory, except that tents, caves, boats, vans and the like are included only if they are occupied. Vacant mobile homes are included, provided they are intended for occupancy on the site where they stand. Vacant mobile homes on dealers' sales lots, at the factory, or in storage yards are excluded from the housing inventory.

Year-round housing units - All occupied units plus vacant units which are intended for year-round use. Data on housing characteristics are limited to year-round units. Vacant units held for seasonal use or migratory labor are excluded because it is difficult to obtain reliable information for them. Counts of the total housing inventory include such units.

Living Quarters - All structures occupied or intended for occupancy as living quarters are classified as housing units or group quarters. Group quarters are not included in the housing inventory; no housing information is collected about them.

Plumbing facilities - Presence of toilet facilities, bathing facilities, and piped water, ascertained for occupied and vacant housing units.

> **Complete plumbing for exclusive use** - Piped hot and cold water, a flush toilet, and bathtub or shower for exclusive use by household members. All facilities must be available continuously. A privy or chemical toilet is not counted as a flush toilet. A bathtub or shower is counted only if it is connected to piped running water.

INCOME AND SELECTED ECONOMIC INDICATORS

Glossary

Personal Income - Personal income is the current income received by persons from all sources net of contributions for social insurance. Not only individuals (including owners of unincorporated enterprises), but non-profit institutions, private trust funds, and private health and welfare funds are classed as "persons." Personal income includes transfers (payments not resulting from current production) from government and business such as social security benefits, military pensions, etc., but excludes transfers among persons. Although most of the income is in monetary form, there are important nonmonetary inclusions - chiefly, estimated net rental value to owner-occupants of their homes the value of services furnished without payment by financial intermediaries, and the value of food consumed on farms.

Disposable Personal Income - Is measured as personal income less personal tax and nontax payments. Personal taxes include individual income taxes (net of refunds), estate and gift taxes, and personal property taxes. (As noted, personal contributions for social security, government retirement, and other social insurance programs are deducted in deriving total personal income). Nontaxes include passport fees, fines and penalties, donations, and tuitions and fees paid to schools and hospitals operated mainly by government. Nontaxes generally exclude purchases by persons from government of goods and services that are similar to goods and services purchased by persons from business.

Per Capita Personal Income - Personal income divided by population showing the estimated personal income for each resident.

Poverty - Unless otherwise specified, poverty statistics represent measures of money income and are based on a "poverty index" first developed by the Social Security Administration (SSA) in 1964 and subsequently modified by a Federal Interagency Committee in 1969. At the core of this index is a nutritionally adequate food plan ("economy" plan) designed by the Department of Agriculture for "emergency or temporary use when funds are low." This index provides a range of income cutoffs or "poverty income thresholds" adjusted by such factors as family size, sex and age of the family head, number of children under age 18, and farm - nonfarm residence. The poverty thresholds are updated every year to reflect changes in the Consumer Price Index (CPI). As an example, the poverty threshold for a family of four with two related children under 18 was $7,356 in 1979.

There are three sources of income:

1. Government - income from governmental wages, salaries, pensions and unemployment benefits.
2. Farm - income of proprietors, tenants and employees from operation of privately owned farms.
3. Private nonfarm - all personal income other than government and farm.

The Bureau of the Census has found inconsistencies in the income data contained in Summary Tape File (STF) 3. It appears that a small number of questionnaires were incorrectly coded, resulting in an overstatement of income. Mean income, per capita income, and aggregate income are most noticeably affected.

Per Capita - The dollar amount by which the per capita income was corrected downward (this is always a negative correction). South Carolina - $78; Anderson - $166; Barnwell - $30; Charleston - $83; Chester - $34; Dorchester - $135; Greenville - $79; Hampton - $125; Kershaw - $32; Lancaster - $488; Laurens - $115; Lexington - $208; Oconee - $44; Pickens $347; Richland - $56; Spartanburg - $152; Union - $90; York - $208.

Inflation - Defined as persistent upward movement in the level of prices, resulting in a decline of purchasing power. Inflation can occur when the demand for goods and services exceeds the supply of the goods and services, or when there is an increase in the amount of money in circulation, resulting in a fall in is value and a rise in prices.

Consumer Price Index (CPI) - The rate of inflation is generally measured by the change in the Consumer Price Index (CPI) expressed as a percentage. The CPI measures the price change of a constant market basket of goods and services over time. During periods of rising prices, the CPI is an index of inflation. The CPI is also used as deflator of other economic series (to adjust these series into inflation-free dollars) and as an escalator of income payments (such as Social Security payments or wage rates in collective bargaining contracts).

Number of Establishments - is the total number of locations at which each company has plants, counting each distinctly different line of activity at each location separately, insofar as company records permit.

Firm - a business unit in manufacturing, mining or electric, gas, and sanitary services. If a company has serveral plant locations in the state or county, then each location is considered a firm. Employment in a firm may range from zero for the self-employed to several thousand workers.

Total Capital Invested - Actual investment in the firm since the start of construction or operations, less depreciation. This covers plant, real estate, machinery and equipment, furniture and fixtures, delivery equipment, and any rent paid for buildings, machinery, etc.

New Capital Invested - Investment, less depreciation, in the firm for the fiscal year surveyed only. New capital invested will be included in total capital invested.

Production Employees - Includes working foremen, and all non supervisory workers (including leadmen and trainees) engaged in fabrication, processing, assembling, inspecting, receiving, storage handling, packing, janitorial, watchman services, warehouse shipping, trucking and recordkeeping and other services closely associated with the above production operations.

Value of Products Manufactured - Dollar value of all manufactured or processed products produced during the fiscal year surveyed. This value is determined by totaling the number of units made or processed and multiplying by the selling price per unit. Also defined as the gross sales of all such manufactured or processed products including value of products in warehouses or unsold.

LAW ENFORCEMENT, COURTS, CRIME AND CORRECTIONS

Glossary

Aggravated Assault - An unlawful attack by one person upon another for the purpose of inflicting severe bodily injury.

Burglary - The unlawful entry of a structure to commit a felony or theft, even though no force was used to gain entry.

Robbery - Occurs in the presence of the victim to obtain property or a thing of value from a person by use of force or threat of force.

Commutation - Reduction in the severity of a sentence (usually reduction in the length of a prison term); reserved to the Governor by the State Constitution.

Conditional Release - Parole for a Committed Youthful Offender, that is, a person under 21 years of age sentenced by a trial judge under the Youthful Offender law.

Juvenile - For purposes of juvenile Jurisdiction of the district courts, a juvenile or "child" is defined as being, with two exceptions, one who has not reached his or her eighteenth birthday and "is not married, emancipated, or a member of the armed services of the United States." The exceptions are where a person has committed, or is alleged to have committed, a criminal offense, including violations of the motor vehicle laws; or has violated the conditions of probation previously ordered in a court proceeding. For these latter situations, the statutes provide that a juvenile or child is one who has not reached his or her sixteenth birthday.

Larency - The unlawful taking or stealing of property or articles of value without the use of force, violence or fraud.

Pardon - Remittance of the remainder of a sentence; reserved to the Governor by the State Constitution.

Parole - Release from prison before completion of sentence by the Parole Commission; subject to specified conditions, usually including supervision by an appointed authority subject to revocation and imprisonment if the conditions are breached.

Probation - Suspension of an active prison sentence by a trial judge; subject to specified conditions, usually including supervision by an appointed authority; subject to revocation and imprisonment if the conditions are breached.

Reprieve - Delay in the execution of a sentence; can be granted by a court or the Governor.,

Serious Crime - Murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary - breaking and entering, larceny, an motor vehicle theft. These offenses, which are counted as they become known to the law enforcement agencies, make up a Crime Index which can be used to indicate the probable extent, fluctuations, and distribution of crime.

*: 1984 Magistrate caseload totals were not avilable at time of printing. The estimates are derived by doubling the filings and dispositions for the first half of 1984.

Note: The number of cases pending at end of period might be larger than the difference between the cases filed during period and disposed of during period due to the cases that were pending at the beginning of the period.

Glossary

Census County Division - Established by the Census Bureau in cooperation with State and local governments, CCD's are relatively permanent statistical areas. They are defined with boundaries that seldom change and can be easily located, such as roads, highways, streams, and railroads. Large incorporated places are usually recognized as separate CCD's even though their boundaries may change as a result of annexations. Cities with 10,000 or more inhabitants generally are separate CCD's and some incorporated places with as few as 1,000 inhabitants may be separate CCD's in very rural areas.

Census Designated Place - These are densely settled population centers without legally defined corporate limits or any other corporate powers or functions. Each has a definite residential nucleus. Boundaries are drawn by the Census Bureau, in cooperation with state and local agencies to include in so far as possible, all the closely settled areas. The term "place" as used by the Census Bureau, refers to a concentration of population, regardless of the existence of legally prescribed limits, powers or functions.

Incorporated Places - These are political units incorporated as cities and towns. There is a concentration of population with legally defined boundaries and legally constituted governmental functions.

Race- Information on race was obtained through self-identification; therefore, the data represent self-classification by people according to the race with which they identify themselves.

The category "White" includes persons who indicated their race as White, as well as persons who did not classify themselves in one of the specific race categories listed on the questionnaire but entered a response suggesting European origin such as German, Italian, or Polish.

The category "Black" includes persons who indicated their race as Black or Negro, as well as persons who did not classify themselves in one of the specific race categories listed on the questionnaire but reported entries such as Jamaican, Black Puerto Rican, West Indian, Haitian, Or Nigerian.

The category "American Indian, Eskimo, and Aleut" includes persons who classified themselves as such in one of the specific race categories.

The category "Asian and Pacific Islander" includes persons who indicated their race as Japanese, Chinese, Filipino, Korean, Asian, Indian, Vietnamese, Hawaiian, Guamanian, or Samoan.

The category "Other" includes Asian and Pacific Islander groups not identified separately (e.g., Cambodian, Indochinese, Pakistani, Indonesian, Fiji Islander) and other races not included in the specific categories listed on the questionnaire.

Rural Population - Population not classified as urban constitutes the rural population.

Spanish Origin - Persons of Spanish origin or descent are those who classified themselves in one of the specific Spanish origin categories listed on the questionnaire -- Mexican, Puerto Rican, or Cuban -- as well as those who indicated that they were of other Spanish/Hispanic origin. Persons of Spanish origin may be of any race.

Urban-rural Residence - The determination of urban-rural residence is made after census results have been tabulated. Geographic areas are classified as urban or rural on the basis of tneir population size and/or density at the time of the census.

Urban Population - All persons residing in areas determined to be urbanized areas or in places of 2,500 or more outside urbanized areas.

Urbanized Areas - These areas are defined by population density and are composed of an incorporated place and surrounding densely settled areas that together have a combined population of at least 50,000. There is no minimum size for the incorporated place that forms the central city of the area. The boundaries of Urbanized Areas do not generally conform to county boundaries.

SOUTH CAROLINA POPULATION

1960	2,382,594	981,386	41.2	1,401,208	58.8
1970	2,590,713	1,250,725	48.3	1,339,791	51.7
1980	3,121,820	1,689,253	54.1	1,432,567	45.9

Note: By Census definition, the urban population is composed of persons living in densely populated areas and in places of 2,500 or more outside urbanized areas. All persons living outside urbanized areas of less than 2,500 or in the open country side are classified as rural. Data for the years between 1950 and 1980 are based on the current urban definition.

Note: Percentage totals may not add due to rounding.

1/: Under the 1980 standards, an area qualifies for recognition as an MSA in one of two ways: If there is a city of 50,000 population, or an urbanized area of 50,000 with a total metropolitan population of at least 100,000.

2/: Aiken County, South Carolina, part of Augusta, Georgia, MSA.

3/: New MSA for South Carolina as a result of the 1980 Census of Population.

4/: York County, South Carolina, part of Charlotte-Gastonia-Rock Hill MSA.

TRANSPORTATION

Glossary

Highways:

Primary Highway System:

Rural - The rural state primary highway system is composed of all Interstate, U.S. and S.C. numbered highways, except those lying within the corporate limits of incorporated towns.

Municipal - The municipal state primary highway system is composed of all Interstate, U.S. and S.C. numbered highways or streets lying within the corporate limits of incorporated towns.

Secondary Road System:

Rural - The rural secondary road system is composed of all State-maintained roads, except Interstate, U.S. and S.C. numbered highways, lying outside the corporate limits of incorporated towns.

Municipal - The municipal secondary road system is composed of municipal extensions of the Rural Secondary Road System.

VITAL STATISTICS

Glossary

Live Birth - The complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy, which, after such separation, breathes or shows any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, or any definite movement of voluntary muscles whether or not the umbilical cord has been cut or the placenta is attached.

Death - The permanent disappearance of any evidence of life at any time after live birth.

Infant Death - Death of a live born infant under one year of age.

Residence Allocation - Vital events in these tables are allocated to the place of residence (county) regardless of the place of occurrence. In the case of a birth, residence is the usual residence of the mother. Deaths are allocated to the residence of the deceased.

SOUTH CAROLINA POPULATION: BIRTHS, DEATHS AND COMPONENTS OF CHANGE: 1970-1985

YEAR	POPULATION		CHANGE	BIRTHS	DEATHS	NATURAL INCREASE	NET MIGRATION

INVENTORY OF STATISTICAL SERIES OF SOUTH CAROLINA

The Inventory of Statistical Series of South Carolina was originally a publication that contained a description of each agency and a listing of all the statistical series put out by each agency. We felt that the descriptions of each State agency had not changed and could be located in other publications, such as: the Budget and Control Board Annual Report, Budget Data Report, and the Budget and Control Board Information and Technology Plan.

This Inventory lists, in categories, the annual statistical series generated by various State agencies. Each State agency was contacted and asked for a listing of their annual publications. This chapter contains a compilation of the information we received and has been arranged in the same sequence as the other chapters. It can be used as a reference in locating more information about each chapter. You may contact each of the contributing agencies directly for more information on their publications.

INVENTORY OF STATISTICAL SERIES OF SOUTH CAROLINA

NAME OF PUBLICATION	DESCRIPTION	GEOGRAPHICAL UNIT COVERED	NAME AND ADDRESS OF COMPILING AGENCY
AGRICULTURE			
Annual Report of the S. C. Dept. of Agriculture	Contains fiscal year activities of Department in relation to laws enforced and services rendered to farmers and consumers.	State	S. C. Dept. of Agriculture Wade Hampton State Office Building Post Office Box 11280 Columbia, S. C. 29211
Annual Tobacco Report	Annual tobacco sales figures for state tobacco markets and warehouses. Weekly figures compiled also.	State	S. C. Dept. of Agriculture
Annual Crop Statistics	Data on acreage, yield, production and value by county. Includes fruits and vegetables.	State, County	S. C. Crop and Livestock Reporting Service Post Office Box 1911 Columbia, S. C. 29202
Annual Livestock Statistics	Livestock and poultry production and value by county.	State, County	S. C. Crop and Livestock Reporting Service

SOURCE APPENDIX

Guide to Sources of Statistics

The South Carolina Statistical Abstract is an abstract. It presents as much statistical information as possible in tabular form, but it is also a guidebook to the sources from which the statistics have been taken. In almost every instance the issuing agency has additional data or perhaps more recent information by the time this publication reaches the user. Most of them are as close as close as the telephone or the nearest library.

State Sources Most of the state publications are available free of charge or for a nominal fee from the agency which issues the report. The State has a sytem of state depository libraries, coordinated by the State Library. All state agency publications are supposed to be on file in depository libraries and the State Library.

Federal Sources Some federal reports are available without charge from the agency which issues the information, but most federal publications must be purchased from the Superintendent of Documents, U.S. Government Printing Office (GPO), Washington, D.C. 20402 (phone 301/763-4100). Publications purchased from the GPO must be paid for in advance. The Statistical Abstract of the United States is similar in purpose to the South Carolina Statistical Abstract. Readers who are interested in information about the nation, its regions, and states are referred to it.

Private Sources A number of private agencies and associations issue publications or reports which have been used in this edition of the Abstract.

Computer tapes All tables in the Abstract were prepared by using a computerized word processing system. Individual tables and additional information can be obtained from the Division of Research and Statistical Services (758-2586).

For the convenience of the reader who requires additional and more specialized information, this section contains the names, telephone numbers, and addresses of contributors to the South Carolina Statistical Abstract. Also included is a listing of South Carolina Affiliate Data Centers. These have been established throughout the state so that there is easy access to statistical data at the local level. The affiliate data centers are composed of 27 libraries and 10 regional planning councils. Each affiliate has a basic census reference collection of frequently used statistical reports.
